1. Plastic Vending Machine

- **Concept**: Exchange plastics into coins by weight (per kilogram).
- **Purpose**: A recycling initiative that encourages the collection of plastics by offering monetary incentives to promote environmental sustainability.

---

2. Anti-Bacterial and Antioxidant Bayabas Soap

- **Target Audience**: Ideal for newborns and individuals who have recently undergone circumcision.
- **Benefits**:
    - **Anti-Bacterial**: Bayabas (guava) is known for its natural antibacterial properties, helping to protect and cleanse sensitive skin.
    - **Antioxidants**: Bayabas is rich in antioxidants that promote healing and skin health.

---

3. Gummy Candies with Herbal Benefits

- **Concept**: Traditional gummy bears with added herbal benefits.
- **Herbal Ingredients**: These gummies may contain herbs such as **chamomile**, **ginger**, **turmeric**, or **lemon balm** to provide health benefits like relaxation, digestion support, or immune boosting.
- **Target Audience**: Health-conscious individuals looking for functional, tasty treats.

---

4. Organic Fertilizer Composed of Plants

- **Ingredients**: A blend of **cow manure**, **sunflower seeds**, **egg shells**, **lemon peels**, and **fruit peels**.
- **Purpose**: A sustainable and nutrient-rich organic fertilizer to enrich soil and promote healthy plant growth. Ideal for home gardeners or small-scale farmers.

---

5. Herbal Ice Cream

- **Product Idea**: A line of ice cream made with herbs and botanicals, such as **lavender**, **mint**, **chamomile**, and **basil**.
- **Unique Twist**: The ice cream combines delicious, creamy flavors with the natural benefits of herbs. The herbs could have relaxing, digestive, or immune-boosting properties.
- **Target Audience**: Health-conscious individuals, foodies looking for unique flavors, and people interested in natural remedies.

6. Natural Paints for Home

- **Product Idea**: A line of natural, eco-friendly paints made from ingredients like **clay**, **lime**, and **plant-based pigments**.
- **Unique Twist**: The paints are non-toxic, low-VOC, and available in a variety of custom colors. They can also be marketed with tips for creating a more sustainable and eco-friendly home.
- **Target Audience**: Homeowners, renters, DIYers, and eco-conscious individuals interested in home renovations.
